

## ENVIRONMENTAL POLICY STATEMENT

Carrier Rental Systems (UK) and Toshiba Carrier (UK) offer the following services:

The sale, hire, maintenance and repair of heating, ventilation, air conditioning, control systems, pumps, generators, pressure jetting equipment and all associated accessories. This equipment may be delivered to the customer, installed and operated on their behalf.

We are committed to protecting the environment and compliance with relevant legal and other environmental and customer requirements and will develop the skills and competences required for relevant staff to manage environmental issues related to our operations. We will also pursue appropriate environmental awareness and understanding amongst our various interested parties, particularly where concerns are raised.

Environmental objectives and targets are set, monitored and reviewed; so as to achieve the set objectives, this process provides the management framework to deliver continual improvement.

Key objectives for the forthcoming year include:

- Management of the storage and movement of hazardous substances within our control.
- Controlled disposal of hazardous waste generated from our activities.

This statement is available to the public on request and will be displayed within all depots in the Group. Contractors working on behalf of the Group that may have influence on our environmental performance will be made aware of policy and requirements.

This policy statement will be reviewed annually and made available to any interested parties upon request.
